Advice:

Use this form for all no permit required, permitted and discretionary planning applications including subdivision, planning scheme amendment & minor amendments to permits.

For visitor accommodation in the General Residential, Low Density Residential, Rural Living, Environmental Living or Village Zone use the sharing economy form available on the Council website.

Completing this form in full will help ensure that all necessary information is provided and avoid any delay. The planning scheme provides details of what other information may be required at clause 8.1 and in each applicable Code.

Please provide the relevant details in each applicable section by providing the information or circling Yes or No as appropriate. If relevant details are provided on plans or documents please refer to the drawing number or other documents in this form.

Often, it is beneficial to provide a separate written submission explaining in general terms what is proposed and why and to justify the proposal against any applicable performance criteria.

If you have any queries with the application form or what information is required please contact the office.

Application for Planning Approval

CHECKLIST OF APPLICATION DOCUMENTS Taken from Section 8 of the Planning Scheme

An application must include:

- (a) details of the location of the proposed use or development;
- (b) a copy of the current certificate of title for the site to which the permit sought is to relate, including the title plan and any schedule of easements;
- (c) a full description of the proposed use or development; and
- (d) a description of the manner in which the proposed use or development will operate.

In addition to the above Council may, in order to enable it to consider an application, request such further or additional information as considered necessary or desirable to satisfy Council that the proposal will comply with any relevant standards, including:

- (a) a site analysis and site plan at an acceptable scale showing:
 - (i) the existing and proposed use(s) on the site;
 - (ii) the boundaries and dimensions of the site;
 - (iii) topography including contours showing AHD levels and major site features;
 - (iv) natural drainage lines, watercourses and wetlands on or adjacent to the site;
 - (v) soil type;
 - (vi) vegetation types and distribution, and trees and vegetation to be removed;
 - (vii) the location and capacity of any existing services or easements on the site or connected to the site;
 - (viii) existing pedestrian and vehicle access to the site;
 - (ix) the location of existing and proposed buildings on the site;
 - (x) the location of existing adjoining properties, adjacent buildings and their uses;
 - (xi) any natural hazards that may affect use or development on the site;
 - (xii) proposed roads, driveways, car parking areas and footpaths within the site;
 - (xiii) any proposed open space, communal space, or facilities on the site;
 - (xiv) main utility service connection points and easements;
 - (xv) proposed subdivision lot boundaries, where applicable.
- (b) where it is proposed to erect buildings, a detailed layout plan of the proposed buildings with dimensions at a scale of 1:100 or 1:200 showing:
 - (i) the internal layout of each building on the site;
 - (ii) the private open space for each dwelling;
 - (iii) external storage spaces;
 - (iv) car parking space location and layout;
 - (v) major elevations of every building to be erected;
 - (vi) the relationship of the elevations to natural ground level, showing any proposed cut or fill;
 - (vii) shadow diagrams of the proposed buildings and adjacent structures demonstrating the extent of shading of adjacent private open spaces and external windows of buildings on adjacent sites;
 - (viii) materials and colours to be used on roofs and external walls.
- (c) where it is proposed to erect buildings, a plan of the proposed landscaping:
 - (i) planting concept;
 - (ii) paving materials and drainage treatments and lighting for vehicle areas and footpaths; and
 - (iii) plantings proposed for screening from adjacent sites or public places.

GUIDELINES FOR DEVELOPMENT IN AREAS WITHIN THE GLAMORGAN SPRING BAY COUNCIL (GSBC) BIODIVERSITY PROTECTION AREA OR IN AREAS CONTAINING NATIVE VEGETATION

Who should read these guidelines?

If you are planning to build or undertake a development on a property within the GSBC 'Biodiversity Protection Area' (see below for definition) or land containing **any** native vegetation, AND your development requires the clearing of **any** native vegetation (including for driveways and outbuildings), then these guidelines are for you.

What is the GSBC Biodiversity Protection Area?

The GSBC Biodiversity Protection Area (BPA) incorporates land that is also zoned for a variety of uses, for example, 'rural living' and 'rural resource'. The BPA contains native vegetation and consequently supports 'biodiversity' (or 'natural') values. These values can be classified as high priority, medium priority or low priority depending on the type of vegetation or the species of plants and animals and their habitat that occur on the land.

The purpose of these guidelines

The purpose of these guidelines is to provide advice in order to save you any unexpected delays in your development – and probably save you time and money in the long run. These guidelines should be considered prior to submitting any Development Application to Council.

Background

The GSB Municipality is renowned for its unique biodiversity (short for biological diversity) and within it there are many 'hotspots' for threatened species, or in other words, those species that are at risk of extinction. Threatened species include both plants and animals (or flora and fauna). The Municipality also contains a number of vegetation types (or vegetation communities) that are also threatened with risk of extinction. Threatened flora, threatened fauna (including their 'core' habitat) and threatened vegetation communities are protected under various State and/or National legislation.

Requirements for a Development Application

If your property contains, or is likely to contain, any threatened species or communities that may be impacted by your development, or if you want to clear a substantial area of non-threatened native vegetation, then you are likely to be required to submit to Council a 'Natural Values Survey Report' (also known as an 'Ecological Assessment' or 'Flora and Fauna Report') along with your Development Application.

However, just because your property contains threatened species or communities, or you wish to clear any native vegetation, this does **not** necessarily mean that you cannot undertake the development.

The purpose of a 'Natural Values Survey Report' is to determine the species and communities present in relation to the location of your proposed development and to provide recommendations including:

- How any potential impacts on natural values can be avoided, minimised or remedied on site,
- If the above is not feasible, then how potential impacts can be mitigated and how any residual impacts can be offset,
- Advises whether you will require permits under various legislation.

Application for Planning Approval

Determining if you need a 'Natural Values Survey Report'

Step 1:

Contact the Natural Resource Management (NRM) Department at GSBC, providing your PID (Property Identification Number) and a broad description of your proposed development.

The NRM Department will make a determination as to whether or not a 'Natural Values Survey Report' will be required. This decision will in no way be an arbitrary decision but will be based on the best current scientific knowledge available through various Government databases. This knowledge is also available to the general public such as through the following links:

www.naturalvaluesatlas.tas.gov.au

www.thelist.tas.gov.au

www.threatenedspecieslink.tas.gov.au

If a 'Natural Values Survey Report' is not required then proceed with your Development Application.

Step 2:

If a 'Natural Values Survey Report' is required then contact a reputable environmental consultant to undertake a survey and provide you with a report.

Any reputable consultant will know that they are required to provide a report that is consistent with DPIPWE's 'Guidelines for Natural Values Surveys – Terrestrial Development Proposals', which can be found at:

<http://dpiipwe.tas.gov.au/Documents/Guidelines%20for%20Natural%20Values%20Surveys%20related%20to%20Development%20Proposals.pdf>

Appropriate consultants are listed in the yellow pages under Environmental Consultants or can be found on the web. It is advisable to ask for quotes from two or more consultants.

Step 3:

Fill out your Development Application with consideration to the recommendations provided in your 'Natural Values Survey Report'.

Step 4:

Submit your Development Application together with your 'Natural Values Survey Report' to Council.

Relevant legislation

Threatened species are protected under one or both of the following pieces of legislation:

- Tasmanian *Threatened Species Protection Act 1995*.
- Commonwealth *Environment Protection and Biodiversity Conservation Act 1999*.

Threatened vegetation communities are protected under the:

- Tasmanian Nature Conservation Act 2002.

Other legislation relevant to the protection and management of native forest:

- Tasmanian Forest Practices Act 1985.

Legislation relating to noxious weeds and their impact on native vegetation:

- Tasmanian Weed Management Act 1999.
