4. Public Question Time

Public question time gives any member of the public the opportunity to freely ask a question on any Council related matter.

Answers to questions will be given immediately if possible, or taken “on notice” if an ‘on the spot’ answer is not available.

In accordance with the Local Government Act questions on notice must be provided at least 7 days prior to the Ordinary Meeting of Council at which you a member of the public would like a question answered.

Asking a question is easy and members of the public are encouraged to ask any question they have (limit of two (2) questions per person per meeting).

Prior to the commencement of an Ordinary Meeting of Council, the Mayor approaches the public gallery and requests that those who would like to ask a question during public question time indicate at that point they would like to do so and give the Mayor their name.

A short instruction sheet outlining the Glamorgan Spring Bay Council procedure for asking a question during Public Question Time will be provided at the Ordinary Meeting of Council to assist members of the public on how to do this. Public question time can be a maximum of 15 minutes only.

Question on Notice

4.1 Mr Brian Anderton

Question 1: Why wasn't the community consulted regarding the separation of the practices? We have already shown overwhelming concern in the past to Councils involvement in the delivery of health services. (Meeting at old Council Chambers). [General Manager (GM): The community is not usually consulted in operational matters. There have always been two distinct practices at Triabunna with services being contracted.]

Question 2: How did the Councillors arrive at the decision to separate the practices? Who did they consult with ? Did they speak directly to Dr Naidoo? If not why not? [GM: They were supplied with all the facts and decided that separation was the only way forward.]

Question 3: Can Councillors explain how they interact with the community to gain an understanding of our wishes when major decisions are to be made? [GM: Councillors carry out various levels of consultation including community meetings. They are advertised in the local papers when they are occurring.]

Question 4: How will patient confidentiality be guaranteed with the practices working so closely and sharing spaces? [GM: The same confidentiality agreements apply within the centre. This is no different to several Doctors working from the same building in separate consulting rooms.]

Question 5: Have confidentiality agreements between the practices been signed? [GM: Refer Question 4]

Question 6: How much has Council (Ratepayers) spent on legal fees associated with East Coast health since its inception? [GM: There has been \$6,474 spent on legal fees since its inception. Most of this has been spent getting various draft agreements prepared for Dr Naidoo.]

Question 7: What is the \$ cost to the ratepayers to separate practices? [GM: The cost is \$21,500, which is a new computer system. The old system was left intact so as to not affect Dr Naidoo and the way he practices. This does not take into account any redundancy monies that were paid.]

4.2 Mr Don Paton

What investigation did Council do into the need for companies like Tassal to require fresh water to be delivered to their site?

General Manager's Response:

Mr Mayor Tassal is just a customer of the pipeline. They have negotiated with us to buy water off us delivered via a pipeline. They have underwritten the dam and the pipeline so they are just a customer. They are just like Solis or the other farmers who want water from the system. They are a customer.

Who is the one who pontificates, the General Manager or whoever, who decides what is relevant and not relevant in relation to this document here (community representations)? There were so many issues raised that have been discarded as irrelevant.

General Manager's Response:

All the representations received for a development application need to be addressing the planning matters, not Tassal's farm, not financial viability. None of those things can be taken into account with a planning application. You need to assess the planning application against the planning scheme and it is as simple as that. It is legislation. We don't deal with emotion in planning matters, we deal with facts.

4.3 Mrs Sue O'Rourke

I just wanted to make a short statement first. It is a statement of thanks to the Manager Works. Since Council took over the Anglican cemetery in Triabunna, the marvelous job that they have done in bringing it up to the state it is. There is no way we would have been able to do that. Thanks to Mr Pollard and his staff for that.

My question was is there the possibility of a disabled car parking space in the car park?

General Manager's Response:

We'll take that on notice and let you know.
