2. Attachment 2 Planning Appeals Nov Jan [7.2.2 - 1 page]

### **PURPOSE**

The purpose of this report is to provide an update on the activities of the Planning and Development Directorate and to specifically report on the development approvals issued under delegation.

### **BACKGROUND/OVERVIEW**

#### **Animal Control and Compliance:**

A total of 1124 dogs have been registered for the 2023/2024 registration period. Since July 1 there have been 12 formal caution notices and 18 infringement notices issued for various offences under the Dog Control Act 2000. Staff are continuing to monitor and patrol public areas, specifically beaches where dogs are restricted or prohibited.

Council's updated Draft Dog Management Policy is currently being prepared for presentation to Council to be put out for community consultation.

On Tuesday 3rd October 2023, TasFire declared that a fire permit period had commenced. Following this notification Council's compliance staff commenced issuing Fire Abatement Notices to properties that were assessed as being a fire risk. This task is continuing with 63 Fire Abatement Notices being issued since this time, 4 Infringement notices have been issued as a result of non-compliance with these notices.

#### **Building and Plumbing:**

There has been a slight reduction in the number of building and plumbing applications so far this financial year. Since July 1 there have been 89 applications approved with a total value of \$33,355,519.00. For comparison, this time last financial year 110 approvals were issued with a total value of \$26,100,236.00.

There continues to be a number of building non-compliance matters that are currently being managed. The Permit Authority has issued several Building Notices and Orders and are currently working with the owners to rectify these matters.

### Environmental Health:

Council's Environmental Health team have been working through the introduction of the new mandatory food safety supervisor (FSS) training for food businesses. This commenced in December 2023 and Council's Environmental Health Officer is now assisting business owners with its implementation.

Other matters currently being dealt with by staff include nuisance investigations, failing onsite wastewater systems and assessment of environmental health related development applications.

### Medical Centres:

On the 16<sup>th</sup> October 2023, both the Triabunna and Bicheno medical centres were transferred to co health to manage and operate. The transition was successful and both practices are now being completely operated by co health. Council will receive an annual report on the operation of the centres following the completion of the first year.

### Planning:

Council's Planning section continue to see a steady flow of Development Applications submitted, however this has declined somewhat likely due to economic pressures at present. Year to date 117 Development Applications have been approved with a total value of \$57,581,331.00. For comparison, this time last year there was 143 Development Applications with a total value of \$36,406,072.00.

Initial consultation for the Structure Plans has now closed and ERA Planning and Environment are preparing the draft structure plans for the townships of Bicheno, Coles Bay, Swansea and Triabunna/Orford.

On the 22<sup>nd</sup> December 2023, The Tasmanian Planning Commission handed down a decision to approve the draft amendment to make a number of minor amendments to the Louisville Road Specific Area Plan in the Glamorgan Spring Bay Local Provisions Schedule.

Presently, Council have provided delegation to the General Manager to approve an application, with or without conditions, where no more than two representations are lodged against the application. A report on these approvals is provided in [Attachment 1](#).

A report on current planning appeals and recently resolved appeals is also provided in [Attachment 2](#).

### Property:

Officers have now finalised a number of rental agreements with tenants of Council's property. These new agreements provide a clear outline of obligations and provide secure tenure for our tenants.

At the October Ordinary Council Meeting, two reports were presented on the disposal of land at Spencer Street, Triabunna and 50 Beattie Avenue, Bicheno. Council endorsed the commencement of the investigation into the disposal of these properties. Officers have now completed the assessment into the Spencer Street property and a report is presented within

this agenda. 50 Beattie Avenue is currently being reviewed by staff and will be presented to a future agenda.

Staff have commenced work on the Public Toilet Strategy. The initial work conducted is an assessment of the current infrastructure. Once this work is completed it is proposed that consultation will be undertaken with the broader community to get an understanding of satisfaction of the current public toilets and what is important to people moving forward, including priorities.

#### **ATTACHMENT/S**

1. South East Tasmania Mountain Bike - Strategic Plan [8.1.1 - 79 pages]

#### **PURPOSE**

To recommend that Council provides a letter of in-principal support to the South East Regional Development Association (SERDA) for the South East Mountain Bike Project between Kellevie and Orford.

#### **BACKGROUND/OVERVIEW**

Council is committed to advancing initiatives that encourage active lifestyles, benefitting both health and tourism in our region. The Southeast Tasmania Mountain Bike Project within the Wielangta Forest Reserve presents an excellent opportunity for tourism development and enhancing the wellbeing of our community.

Outlined in the attached *Southeast Tasmania Mountain Bike Strategic Plan* is the proposal for the development of approximately 70km of trails in the Wielangta State Forest. The envisaged network will seamlessly connect existing trails between the Kellevie and Orford townships and extend to other adjacent local attractions. This location is strategically positioned for visitors, being approximately 80km from Hobart and the international airport, and in close proximity to renowned tourism destinations such as Maria Island, Freycinet National Park, and the Port Arthur Historic Site.

This initiative aligns with Council's Priority Projects, and by Council extending a letter of in-principal support to the Southeast Regional Development Association (SERDA), there is an opportunity to boost economic growth and community wellbeing.

Should a Southeast Tasmania Mountain Bike Project proceed it will form part of the future GSBC municipal walking and cycling strategy to be developed in 2024.

SERDA and South East Mountain Bike Association discussed the South East Mountain Trail project with Councillors at a Workshop held on 17 October 2023.

Section 178 of the Act sets out the process that must be followed by a council which intend to dispose of public land. In addition, the Policy deems all land owned by Council to be 'public land' for the purposes of the Act.

Council has completed the public notification of its intent to sell public land and the public's right to object in accordance with the requirements of section 178. Following the completion of the notification, Council is now required to consider any objections received and decide whether or not to take any action regarding the objection.

Furthermore, under subsection 178(6), within seven days of making a decision regarding an objection, Council must write to the objector to notify them of Council's decision as to whether any action will be taken. This written notification must advise the person of the right to appeal against the Council decision under section 178A.

### **The results of the valuation of the Council Land**

Valuations for the property have been received. The results of the valuations can only be discussed in closed Council, on the basis that they contain “information that, if disclosed, is likely to confer a commercial advantage or impose a commercial disadvantage on a person with whom the council is conducting, or proposes to conduct, business;” (r. 15(2)(b) *Local Government (Meeting Procedures) Regulations 2015*).

### **The consultation process undertaken and consideration and response to every objection lodged**

Council’s intention to dispose of the land was advertised on two (2) occasions in the Mercury and Examiner and a copy of the notice was displayed on each property boundary notifying the public that objection to the proposal could be made to the General Manager within 21 days of the date of the first publication. Owners of neighbouring and affected properties were also notified of the proposed disposal.

### **Submissions Received**

Two (2) submissions were received. The breakdown relating to properties is as follows:

Property	Number of Submissions received
25 – 35 Spencer Street, Triabunna	2

### **Summary of reps and consideration**

25 – 35 Spencer Street, Triabunna Representor 1	
Points Raised	Officer Comments
<p>Objects to the sale of these lots. For the following stated reasons.</p> <ol style="list-style-type: none"> <li>Our roads are currently unsuitable for the current population of Triabunna, boarding on unsafe with the current damage/potholes on the roads. They cannot accommodate an influx in population that would come from such a development.</li> </ol>	<p>The condition of the roads is a separate matter which is dealt with through the Council’s Asset Management Plans. If the site was to be developed, it would require improvements to the access road which would be at the Developers cost. The existing road network can adequately deal with any proposed development onsite.</p>

<p>2. We do not have the services available to accommodate an influx in the population. Specifically, our medical centre is struggling to cope with the demand of the current population with the standard wait times for appointments already being 4 weeks.</p> <p>3. Due to the lack of suitable fenced area for the children in the area to congregate and play this land is used by the children of the neighborhood for this purpose, as the area is away from the road and can be viewed by parents from their homes. I suggest that a better use of the area would be to develop a suitable playground or path for prams or dog walking to benefit the current children and families in Triabunna.</p> <p>4. I purchased my residence with a key factor being that the neighboring lot was crown land. This factor appealed to me on the basis that this lot was quiet, offered a level of privacy and safety. As per point 3 above, our children also use this area to play. This will cause a significant negative impact on the way we live our day to day lives for the period that we reside in our home.</p> <p>5. For the period that the proposed development is being completed, all the neighboring lots of the proposed development will be affected by noise, machinery and builders. The influx of all of the above will again affect our day to day lives, and the safety of myself and my family.</p>	<p>Services are always a struggle in a small community. The Medical Centre wait times will be addressed by the new managers Co-health and it is anticipated to improve. This should have no relevance to the disposal decision as there are a number of other developments in the area.</p> <p>There is a considerable amount of other open space land in Triabunna including the star shaped block adjacent to this property.</p> <p>The development of the land will bring more residents to the area and provide increased safety through neighborhood watch. The future use of any land cannot be guaranteed and whilst it is acknowledged that residents may have factored this into purchase decisions, this cannot be relied upon. The land is zoned as Residential and already has titles for each block.</p> <p>It is understood that residents will be affected during any development process, this process is controlled by legislation in relation to noise abatement and work times. If this is breached, then residents have the right to lodge concerns against such activity. There is no direct link between development and resident safety.</p>
<p><b>25 – 35 Spencer Street, Triabunna Representor 2</b></p>	
<p>Objects to the sale.</p> <p>Requests that they not be sold as public housing.</p>	<p>The property will be passed to market as an open process and there is no indication that this will be purchased or considered for public housing.</p>

A number of Housing Department houses for families were built in the 1970's to accommodate workers when the Woodchip Mill opened. Triabunna is a small town with few work options available since the mill closed. More social housing would make life for the residents difficult.

## **STRATEGIC PLAN REFERENCE**

### **Guiding Principles**

4. Take an East Coast perspective but also acknowledge the differing needs and priorities of each town or area.
5. Ensure that our current expenditure and ongoing commitments fall within our means so that rates can be maintained at a manageable and affordable level.
7. Communicate and explain Council's decisions and reasons in an open and timely manner.

### **Key Foundations**

2. Our Community's Health and Wellbeing
4. Infrastructure and Services

### **What we plan to do**

- Create an informed and involved community by developing relevant and accessible communication channels.
- Maintain public amenities and recreational facilities.

## **STATUTORY IMPLICATIONS**

Section 178 of the Local Government Act 1993 (the Act) sets out the process that must be followed by a council which intends to dispose of public land. Staff have ensured that this process has been followed.

## **BUDGET IMPLICATIONS**

If Council proceeds with the disposal, there will be real estate costs incurred. This will be covered by the project and appropriate procurement undertaken.

## **RISK CONSIDERATION/S**

<b>Risk</b>	<b>Likelihood</b>	<b>Consequence</b>	<b>Rating</b>	<b>Risk Mitigation Treatment</b>
<b>Adopt the recommendation</b>	Unlikely	Negligible	Low	Council considers all objections received during the statutory consultation process, as required under s. 178 of the Act.
Adverse public reaction of decision to advertise Council’s intention of disposal				
<b>Do not adopt the recommendation</b>	Likely	Moderate	High	Council gives consideration to a strategy for realising land assets that are not required for strategic purposes. Council articulates any issues with the proposed disposal and instructs officers to address these in a future report.
Council will delay the opportunity to potentially dispose of surplus land that serves no strategic purpose and may be able to be disposed of for money or land with greater strategic benefits.				

## **OFFICER’S COMMENTS**

Under section 178A(3A) of the *Local Government Act 1993*:

*an appeal may only be made on the ground that the decision of the council is not in the public interest in that:*

- (a) the community may suffer undue hardship due to the loss of access to, and the use of, the public land; or*  
*(b) there is no similar facility available to the users of that facility.*

It is considered that the objections received do not demonstrate that the community would suffer undue hardship due to the loss of access to, and the use of, the land at Spencer Street. This land is zoned residential and is not considered to be open space. There are also a number of other open space parcels in the area including but not limited to:

- Open space adjoining these properties;
- Ada Street Open Space x 2
- Ada Street Reserve

As such the property is recommended for disposal.

## **OFFICER’S RECOMMENDATION**

That Council:

1. RECEIVE and NOTE the responses received during the process conducted under section 178 of the Local Government Act 1993 for 25 – 35 Spencer Street, Triabunna (Title Ref: 55156/25 – 35).
2. Having considered all the submissions and objections received APPROVE the Disposal of the Public Land by way of exchange, sale or lease, in whole or in part, and
3. AUTHORISE the General Manager to take any actions necessary to give effect to the disposal of the Public Land.

As per section 23(9) of the Act - the State Emergency Management Controller will provide the nomination, together with his or her recommendations, to the Minister.

The Minister for Police, Fire and Emergency Management is to appoint as Municipal Emergency Management Coordinator, for a municipal area, a person nominated by the council in that municipal area.

Appointments are for the term noted on the Instrument of appointment, and in this instance the terms for Coordinator and Deputy Coordinator expire on the 24<sup>th</sup> March 2024.

## **OFFICER'S COMMENTS**

Festivals bring many benefits to our communities, such as boosting the local economy and attracting more tourists. Retail and tourism businesses can benefit from the increased visitor numbers. This event will have a positive economic effect for the area.

The Spoke Motorcycle Festival organisers have asked for a high level of support from Council compared to other events. Council is prepared to offer limited services of support that are within the usual range of operational works but is not prepared to coordinate on behalf of others, third party services.

Council has not been involved with supporting the Spoke Motorcycle Festival before.

In the interest of promoting equitable treatment for all event organizers, the Council officers recommend considering the following options:

- Council will supply, deliver and collect, 12 rubbish bins (red lid) and 12 recycling bins (yellow lid) for the event. Council will provide a supply of bins to be used for each bin, with any unused bin liners returned to the Council at the end of the event. The bins must be emptied regularly by the event organisers and returned in the same condition they were provided. Damaged bins are to be repaired/replaced at the cost to the organiser.
- Provide a financial contribution of \$2,500 towards expenses of the event.
- The event organiser will be required to supply photographs to the Council and grant permission for their use.

Integrity Assessment:
