# 1 Introduction

## 1.1 Vision

Glamorgan Spring Bay Council's (Council) vision is to have a mature risk management framework which is embedded in the organisation's culture, enabling risk management principles and practices to be seamless in all planning, decision making and operations.

## 1.2 Scope

The Risk Management Policy (Policy) includes all services and functional areas of the organisation, including contractors, consultants and volunteers, and all levels within the organisation.

The policy is applicable across the organisation and encompasses risk management principles pertaining to all classes of risk.

Risk assessments will be undertaken for all:

- Operational activities
- Projects
- New activities
- Community events sponsored by Council

## 1.3 Objectives

The objective of the Risk Management Policy is to ensure effective risk management practices and procedures are fully integrated into our organisation's culture, enabling us to minimise threats and maximise opportunities in the achievement of our strategic objectives. This Policy will be supported by a complementary Risk Management Strategy.

Fundamental to risk management are the following objectives:

- To improve Council's overall performance in areas such as decision making, legislative compliance and achievement of the objectives outlined in council's Strategic and Annual Plans.
- To ensure that Council's resources are allocated effectively and efficiently.
- To raise awareness of risk management in our organisation.
- Engage all stakeholders of Council, including Staff, in supporting and driving risk management principles as outlined in AS ISO 31000:2018 Risk Management – Guidelines.

## 1.4 Delegation of Authority

Authority for implementation of the Risk Management Policy is delegated by Council to the General Manager in accordance with the Local Government Act 1993.

# 2 Policy

## 2.1 Risk Appetite

As Council has limited resources, risk identified as extreme and high will be addressed immediately. Moderate risks will be assessed in terms of other competing needs and action will be taken to reduce this risk if resources permit. Low risks require no immediate action but could be managed by routine procedures

## 2.2 Roles and Responsibilities
