

Location	Change to document
Throughout the document	Correction to spelling errors, punctuation and grammar.
Throughout the document	Mention of Raspins Beach or Raspins Reserve will be changed to Raspins Beach Conservation Area and Millingtons Beach or Millingtons Reserve will be changed to Millingtons Beach Conservation Area
Throughout the document	Renaming Spring Bay Landcare Group as Orford Community Group
Throughout the document	Deleting the reference to 'statutory Management Plan' and replacing this with 'management plan'
Throughout the document	Replacing the name 'Shack owners' with 'rate payers and local community members'
Throughout the document	Replace 'Environmental Impact Assessments' with 'Reserve Activity Assessments'
Throughout the document	Replace reference to Luther Point with 'Orford Rivulet', as Luther Point is outside the scope of this Master Plan
Page 9 Map 2.1 Land Tenure Orford Foreshore	Land Tenure Orford Foreshore to correct lease and licence information and locations
Page 14 first paragraph of 2.4 Recreation and Social Values	Adding historical information regarding Aboriginal use and then add that Europeans first settled in Orford during the 1830s.
Map 3.2 Orford Foreshore Master Plan	Clarify proposed boundary line of Public Reserve and include entrance to Radar Beach in the boundary line
Map 3.2 Orford Foreshore Master Plan	Include a table of use and seasonality use to explain permitted use inside and outside the fence line of the IBA
Map 3.3	Add formal beach access track to Map 3.3
Map 3.4 Raspins Beach Site Concept Plan	Rename Map 3.4 Raspins Beach Conservation Area Toilet and Carpark Site Concept Plan
Map 3.5 Radar Beach Site Concept Plan	Rename Map 3.5 Public Reserve-Radar Beach Site Concept Plan
Map 3.6	Add seasonal access for pedestrians and passive recreation in intertidal zone and along the sand bags, and include entrance to backwater in Public Reserve Boundary, and move the fencing on the map to reflect current location of the fencing
Map 3.8 Prosser Bridge Site Concept Plan	Update Key to reflect current toilet, track and TasWater Pump Station locations, and remove red circles
3.2.6	Expand the sentence 'The site plan provides for a growth of use in the future, which is expected to arise with increased visitors' with 'and due to current and future

	subdivisions of the Shelly Beach area an increase in rate payers.’
Map 3.9 Millingtons Beach Site Concept Plan	Rename Millingtons Beach Conservation Area Carpark Site Concept Plan and alter location of defined path to Prosser River Foreshore to current location
Page 52 4.1.1 Short-term Action Plan S4	Add PWS to members responsible for actions
Page 52 4.1.1 Short-term Action Plan	Add S20 “As mentioned in Appendix 2.4 With or without a change to reservation status, the Council should explore funding initiatives to employ bird stewards (e.g., something like security guards for the birds) during the bird breeding season, to give more direct protection than the current passive measures which are inadequate. Council, Parks”
Page 53 4.1.2 Medium-term Action Plan M1	Add Council alongside PWS to members responsible for M1
Page 53 4.1.2 Medium-term Action Plan M10	Add info here Future revegetation works will have to be properly resourced to deal with following WONS, environmental weeds and coastal wattle control. There is a management statement for Millingtons Beach Coastal Reserve Management Strategy 1998 that would be useful to guide future works. Will require a long term vegetation management strategy that is well resourced to complete the 15 year program. Include Council and Rate Payers and Local Community alongside PWS to responsible members. (Page 53)
Page 53 4.1.2 Medium-term Action Plan M12	Add monitoring sites referred to in M12 to map and include reference to map number in M12
Page 54 4.1.3 Long-term Action Plan	Add L11 Investigate the feasibility of propagating and reintroducing <i>Caladenia. filamentosa</i> into suitable habitat in Millingtons Beach Conservation Area. Orchid Conservation Program at RTBG, PWS
Page 54 4.1.3 Long-term Action Plan	Add L12 Investigate the feasibility of implementing ecological patch burns in Millingtons Beach Conservation Area, PWS to long term actions
Page 55 4.2 Adopt Best Practice part 5	Add ‘Building site design of infrastructure needs to incorporate predicted sea level rise, storm surges and future visitor capacity.’
Throughout Appendices	Add page numbers to the Appendices
A2.1 Background and context to first paragraph on Page 3	Add information regarding confirmed sightings of Swift Parrots foraging along the Orford foreshore and also confirmed sightings of Eastern Barred Bandicoots at the northern end of Raspins Beach Conservation and also

	throughout the foreshore of the Millingtons Beach Conservation Area foreshore vegetation
A4.1 Background and context	Add a map of the vegetation communities within the project scope
4.3 Conflicting interests/priorities/management issues final paragraph	Rephrase final paragraph and include 'Any disturbance to the soil will encourage dormant seeds in the seed bank to sprout such as weed species and coastal wattle. Future revegetation works will have to be properly resourced to deal with following WONS, environmental weeds and coastal wattle control. There is a management statement for Millingtons Beach Coastal Reserve Management Strategy 1998 that would be useful to guide future works'
B3 Results	Update weed locations as Boneseed is known to occur at the northern end of Millingtons Beach Conservation area, and Montpellier broom and English broom are known to occur in the southern end of Millingtons Beach Conservation Area and in the Public Reserve behind the foreshore of Raspins Beach Conservation Area, and Gorse is all throughout the Millingtons Beach Conservation Area and also found in the Public Reserve behind Raspins Beach Conservation Area. Marram Grass is found in the IBA and Blue Periwinkle is found in Millingtons Beach Conservation Area.
B4 Priorities	Explain that under the <i>Weed Management Act 1999</i> there is a need to target Zone A weeds first, then Zone B, WONS weeds first, then environmental weeds second.
B4 Priorities Periurban interface Actions	NRM style pamphlet for local residents has already been developed and mailed out 5-6 years ago. An update or revision could be remailed by Council.
B4 Priorities Orford Bird Sanctuary – land management	Add Marram grass removal and replace with a native spinifex as an action
Figure 3: Weed and land management priorities for the Orford foreshore area, Millingtons Beach Conservation Area Re-vegetation 3.	Refer to Millingtons Beach Coastal Reserve Management Strategy 1998 as a guiding document for vegetation species selection and revegetation methodology.
