

## MEDIA RELEASE

**Subject: Council Responds to Performance Improvement Direction**

Date: 23/07/2020

---

Glamorgan Spring Bay Council has officially received confirmation of the Performance Improvement Direction (PID) issued by the Minister for Local Government.

The PID was received this week and directs Council to prepare and maintain a number of financial and asset management plans.

This work must be completed by 31 March 2021.

Acting Mayor Jenny Woods said Council is committed to working with the Government on the matter.

Ms Woods said Council had already started to address a number of the issues raised in the PID with funding to complete the necessary work allocated in its 2020-21 Budget. The Budget was adopted last month.

“The Minister has already acknowledged the work of Council in improving its approach to governance when he announced his intention to issue the PID last month,” she said.

“Council looks forward to working with the Director of Local Government and the Minister to ensure we meet our statutory obligations.”

As part of the PID, Council will publish bi-monthly progress reports on its website.
